***Fullness Disclaimer** – Fullness and/or puckers within a quilt top cannot be quilted out. We cannot guarantee that puckers and tucks won't be sewn in. In some cases excessive fullness in borders may result in quilt top corners not being square. The flatter your quilt top is, the better the finished quilt will be.

***Mechanical Disclaimer** – Please be aware that sewing machines including longarm machines are mechanical devices. Although we do our best to ensure perfect results every time, on very rare occasions mechanical problems can occur which may cause minor damage to a quilt top and/or backing. Tension issues can also occur causing some unevenness of stitches. Thread breakage can occur causing breaks in the stitch line.

In the event of damage to the quilt beyond repair due to machine malfunction, weather, fire or other means, we will be responsible only for replacement of costs of materials necessary to make the quilt. We will not accept responsibility for reimbursement of labor or time involved to produce the quilt

I authorize Ron and Marsha of Romaki Quilting to complete the work listed above. I understand that I am financially responsible for the cost of services rendered and for all materials used in this process. If this quilt is displayed in a show or publication, I agree to credit the machine quilting to Ron and Marsha Dowell of Romaki Quilting. I authorize Romaki Quilting to use photos of my quilt in their marketing (brochures, website, etc.)
